WEDDING BELLS RING OUT

HECTOR-ELIAS

Elvera Hector daughter of Mr. and Mrs. Olaf Hector of this place, and Edwin Elias, son of Mr. and Mrs. E. D. Elias of Mt. Jewett were united in marriage Wednesday, June 27th at 4:00 o'clock p. m. at the home of the bride, Rev. G. S. Larson officiating.

Their attendants were; Alma Hector, sister of the bride and Geo. Elias, brother of the groom.

The bride was beautifully gowned in white canton crepe and tulle veil and carried white brides roses. The brides maid wore salmon pink crepe de chine and carried pink roses.

Following the ceremony a dinner was served, the table decorations were pink and white roses.

The young couple left on a wedding trip to the Thousand Islands. They will be at home after July 10th at Jamestown, N. Y.

The out of town guests were; Mr. and Mrs. E. D. Elias, Mr. and Mrs. A. Elias, Mr. and Mrs. Chas. Elias of Mt. Jewett and Mr. and Mrs. S. Linch of Lima, Ohio and Anna Swanson of Port Allegany.

Miss Hector has been a clerk in the Fry Company store for several years and is a very popular girl.

Mr Elias is employed by the City Electric Company of Jamestown and is a fine young man.

The Miner extends its best wishes.

COOPER-BULLERS.

A pretty home wedding occurred Monday, June 25th at 9:30 a. m. at the home of the bride's parents where Anne Cooper, only daughter of Mr. and Mrs. Robert Cooper of East Main street became the bride of Claude Bullers, son of Mr. and Mrs. G. E. Bullers of Brookville, Pa., Rev. Arthur Gregson of the M. E. church of this place, officiating.

Marguerite Cooper and Byron Bullers both of Bradford were the attendants.

The bride wore a tan canton crepe dress with hat to match and corsage bouquet of pink roses. The bridesmaid was attired in grey canton crepe with hat to match and carried pink roses.

A wedding breakfast was served following the ceremony.

The table decorations were pink and white roses. The house was decorated with mountain laurel.

The young couple left for a week's stay in Pittsburg. On their return they will reside in Bradford where Mr. Bullers is sales manager for the Bradford Auto Sales Company.

Mr. and Mrs. Dan Cooper of Bradford were the out of town guests.

Miss Cooper is one of Smethport's most popular girls. She attended Smethport high school, and later held a position with the Standard Electric company for some time, where she made many friends by her courtesy and efficiency.

Mr. Bullers is a hustling young business man with a promising future.

The Miner extends its congratulations.

JOHNSON-HULL.

Vera Johnson daughter of Chas. E. Johnson and Robert Hull son of Mrs. J. S. Hull of this place, were united in marriage at the Lutheran parsonage at Port Allegany, Wednesday, June 27th at 12 o'clock. Rev. G. S. Larson officiating.

They were attended by Lucy Moore and Albert Johnson, brother of the bride.

The bride wore a suit of dark blue poiret twill and hat to match. Her corsage bouquet was of pink roses. The brides maid wore a gown of dark blue georgette and carried yellow roses.

Following the ceremony a dinner was served at the home of Mr. and Mrs. Robert Scherer of Port Allegany.

The happy couple left for a weeks motor trip including Erie, Cleveland, Akron and other points. They will reside here.

Miss Johnson has held a position in the Bell telephone office here for several years. She is a fine young woman with a large circle of friends Mr. Hull is an employe of the Interstate Window Glass Factory and is well liked.

The Miner extends its congratulations.

MR. AND MRS J. A. NELLIS WILL TAKE WESTERN TRIP.

Mr. and Mrs. J. A. Nellis of this place will leave Monday, July 1st for Eastland, Texas, where Mr. Nellis is engaged in extensive oil operations. They will make the trip, a distance of about 1800 miles in their Marmon car, their route being to Cleveland, down across to the Lincoln Highway, and then to St. Louis.

They expect to be on the road about 7 or 8 days.

Mr. Nellis who returned recently from Texas brought with him a baby timber wolf about six weeks old. He had it sent by express and it was on the road from Monday until Friday. The animal looks like a little puppy, brown in color and seems very docile and good natured.

People who are familiar with animals of this kind, say if brought up in captivity, he will be as gentle as a dog. The wolf purchased from the McCleery farm at Kane, by Lord Auckland, is a good example of this.

During the Nellises absence, about three months, their house will be occupied by Mr. and Mrs. C. B. Corwin.

FOUR IN RIDGWAY HOSPITAL AS RESULT OF AUTO ACCIDENT

Ridgway, June 25.—Four people out of a party of seven are in the Ridgway hospital as the result of an accident yesterday when an Oakland touring car left the highway between Ridgway and Johnsonburg at Whistletown and crashed into a concrete culvert completely demolishing the car.

The car owned and driven by Dominick Santi Tietro, who with his wife, Mr. and Mrs. Ralph Testa, their two children Elizabeth aged 12 and Bennie aged 6, and James Scienda of Johnsonburg, formed the party. All except Bennie Testro, his mother and James Scienda are in the hospital, suffering from bruises and lascerations. Ralph Testro is the most severely hurt, but all will recover.

Witnesses of the affair said that the car was driven rapidly and was careening widely from one side of the road to the other before it finally plunged off the highway into the concrete post. It is believed that Tietro lost control of the car and then "stepped on the gas" by mistake causing the mishap.

HECTOR HOME GUTTED BY FIRE TODAY.

The home of Olaf Hector who lives about a mile west of town was badly gutted by fire today about 2:45 p. m. Mrs. Hector who had been lying down in a bed room off the kitchen was awakened by a peculiar noise, and on opening the door was greeted with a wall of flame. She promptly slammed the doors and running outside gave the alarm. Her hair was singed and dress badly burned. Smethport Fire company was on the spot in a few minutes and did yeoman service in controlling the fire, so that the house was not entirely destroyed.

The interior however is in bad shape from both fire and water.

Most of the wedding presents from the Hector-Elias wedding which took place the day previous were saved and the greater part of the furniture. The origin of the fire is unknown.

The loss is partly covered by insurance.

GROCERY STORE SOLD.

C. A. Kranking has sold his grocery stock to H. J. Ellsworth of this place. Mr. Ellsworth formerly ran a grocery store here and is a capable business man and well liked. Mr. and Mrs. Kranking have made many friends during their management of the store, who will be glad to learn they expect to remain here.

NEW SILK MILL AT SHINGLEHOUSE PROGRESSING.

The new silk mill at Shinglehouse is progressing rapidly with the concrete walls for the foundation all finished and ready for the bricklayers to begin their work. The main building will be 52 x120 feet in size. The building will be erected as quickly as possible and it is hoped to have it ready for operation in the early fall.

CONOPUS CLUB HOLDS LAST MEETING TILL AFTER THE FAIR.

At the Conopus Club Meeting held Monday noon at the Grand Central, the chairman of the Industrial committee Sanford Fry, reported concerning the Glass Factory project which has been abandoned, and in regard to the new gasoline car for the Kushequa rail road.

T. F. Hungiville reported concerning the swimming pool, walls of which will be completed by July 1st.

A committee of three: E. G. Potter, P. S. Crossman and H. Hockenbury will have entire charge of the swimming pool as to concessions, etc. They will have the right to rent parking places for cars, bathing suits, etc.

E. G. Potter reported that the roads were being oiled between Kasson and Mt. Jewett, and between Farmers Valley and Larabee.

The attendance prize was won by D. M. Brasted, and was donated by Chas W. Masser.

TWO KANE WOMEN INJURED ON THE WILCOX ROAD.

Mrs. E. H. McCleery of Tionesta avenue and Miss Margaret Bittenbender of Park avenue were injured last evening when the coupe they were occupying ran off the Wilcox road and tipped partly over.

The ladies had reached a spot in the road that was being repaired and turned out to pass a car owned by the Colquist brothers of Kane and occupied by them. The surface of the newlygraded road at the side was not solid enough to hold the coupe and the car dropped into a ditch about a foot and a half deep. The ladies were imprisoned in the car, and the glass had to be broken in order to extricate them. The Colquist brothers and passengers from a passing car soon got the women out of the coupe and they were brought to Kane where Dr. E. H. McCleery attended his wife and her friend.

Miss Bittenbender sustained painful injuries to her back and Mrs McCleerys wrist was sprained. The car was not badly damaged.—Republican June 27

COLLEGE INN FOODS.

Miss Rebecca O'Brien representative of the Hotel Sherman Co. demonstrating the College Inn Foods will be at the Colegrove Grocery this week.

HUGE BLACK BEAR CHASES CHILDREN.

Condersport, June 25.—Yesterday afternoon the children of B. S. Baker of Inez, Potter county had a remarkable experience while playing in a small clump of woods near their home. The children heard their dog barking fiercely and went to see what the trouble was and discovered a large bear sitting up in the road looking at them. They became terrified and started on the run for home.

The bear bounded over the fence and started after them but when he came to the brook where it was dammed up, Bruin could not resist the cool spot and jumped in. When the children looked back he was splashing in the water and fully enjoying himself. A flock of sheep grazing near by was no doubt the cause of his presence.

GIRL SCOUTS WILL CAMP AT CHAUTAUQUA LAKE.

The Smethport Girl Scouts will leave July 16th for Chautauqua lake where they will camp for two weeks. They will go as guests of the Bradford Girl Scouts, and will be under the chaperonage of Miss Josephine Cramer of Bradford, who organized the troop here. The final examinations were held here Saturday. About fourteen or fifteen girls expect to be in the party.

SHEEP MEN TO POOL WOOL

The Sheep and Woof Growers' Association will pool the wool of its members and all others who are interested in becoming members of the Association, in the Allegany Glass Factory Warehouse, in Port Allegany where it will be graded and sold. Bids for the same will be accepted and opened on Saturday the 7th. This will give every man an opportunity to know the best bid when he delivers his wool and help decide whether or not to sell immediately. The following is a schedule which will prevent standing in a line, and waste of time when you come to the warehouse. Every sheep man should place his wool for sale in this manner since this pooling brought much greater returns the past year.

Monday A. M. July 9.—Port Allegany, including all RFD routes.

Monday P. M. July 9.—Smethport including all RFD routes.

Tuesday A. M. July 10—Turtle Point and Eldred, including all RFD routes.

Tuesday P. M. July 10.—Potter County.

Wednesday A. M. July 11.—All territory in the county not mentioned as well as all men woh were not able to attend on the day specified for their community.

Effects of Lime

If there is yet any farmer who doubts, concerning the advisability of using lime, all that he should need to do, is to observe that along all the hard surface of highways which have been built in this county in the last few years, there is an abundance of white clover growing along the roadsides, regardless of any seeding. This is entirely due to the lime dust which falls by the roadside from the crushed rock and cement which they used in building the road.

FIDELITY GRANGE

There will be no Fidelity Grange meeting on the evening of July 4th.

CAUGHT IN A BELT: .....IS PRISONER ALL NIGHT

Bradford, June 23.—J. R. Hanna, formerly of Bradford, who lives on his lease, near Rew City, met with a most unfortunate experience Thursday afternoon when at work alone on his lease. In some way he got caught in a belt of the engine and was unable to extricate himself and he remained held a prisoner by the belt all through the night with his thigh broken and bruises from which he suffered terribly.

Mr. Hanna was not discovered in this plight until yesterday morning, when workmen found the injured man and removed him from underneath the belt. Mr. Hanna was brought to Bradford in an automobile and taken to the Bradford hospital. Mr. Hanna is an aged man.

TRAINED ANIMAL CIRCUS HERE NEXT TUESDAY

Gentry Bros Famous Show combined with Jas. Patterson's big 4 Ring Trained Wild Animal Circus, Which will exhibit in Smethport on Tuesday July 3, era presenting a patriotic spectacle as the opening number of this years all new performance. Nearly 100 of the ponies take part in the picture which represents the allied nations. At a command from the trainer they march in different directions, each one bedecked with flags of the nation they represent and the entire panorama of horses forms one of the most stirring events in the program. This spectacle is the result of the trainer's efforts of the past year and is pronounced the biggest and best animal display ever seen. Many new acts and features have been added to the combined shows this year including a complete wild animal arena.

WELL WORKER MEETS DEATH BY DROWNING

Thomas Horton, aged 27 years, a well-known oil well worker of Duke Center, was drowned yesterday in a creek, not 100 feet back of the Horton home. The young man, who lived along with his mother, left the house about 11:30 o'clock, after going to the home of Earl Everitt nearby to get some water. When he left home he did not tell his mother where he was going. When he did no return she believed he had gone to be home of relatives for a visit, but when she found this morning that he was still away, she hurried to the home of Earl Everitt and informed him of her son's absence from home.

Mr. Everitt said that he would not go to work until he had found the missing young man and searched the Horton barn in vain. He then went to the creek nearby and on one of the banks discovered Horton's clothing. He gave the alarm and soon had several men to help him look for Horton, whom he believed to be drowned.

Paul Duke, John Houck, Harry Kennemuh and others waded into the stream which is shallow with the exception of a hole which is ten feet deep to look for the body, and they were correct in their surmises, for the body of Horton lay at the bottom of the deep hole.

A garden rake was employed to raise the body from the watery grave and it was soon placed on the bank. A deep cut on Horton's nose would lead one to believe that he dove into the pool and struck on some hard substance and was perhaps rendered unconscious. Or he may have been seized with cramps.

At any rate he had been in the water since leaving his home only a few feet away, since yesterday afternoon, while his mother believed he was safe in the home of relatives.

The Everitts and other neighbors wer severely shaken by the drowning, especially Mr. and Mrs. Everitt who had visited with Horton just a few minutes before he went to the creek for a swim. That the deceased should meet with such a tragic death while taking what, is generally believed, a cooling dip on a sweltering hot day, is the regret of the entire community in which he lived and his bereaved mother has the sympathy of all.

Acting Coroner H. C. Haffner of Bradford, will go to Duke Center this evening and made an investigation as to whether there were any reasons why Horton should make way with himself, or whether the drowning was purely an accident.

Deceased and his mother moved from Westfield, Pa., to Duke Center two years ago and have lived there since. Mr. Horton was employed as pumper by C. A Duke of Duke Center He leaves besides his mother one sister, three half-brothers and two half-sisters, none of whom live in Duke

Acting Coroner Heffner directed Undertaker Marsh of Eldred to take charge of the body and it was removed to the Horton home.—Bradford Era,—June 25.

NOTICE.

Furnished rooms to rent. Inquire 712 West Main street. Mrs. Martha Chadwick.

DANIEL SHEEHAN PASSES AWAY.

Daniel Sheehan of St. Marys, for mer well known resident of this place, died Monday morning at the St. Mary's hospital of a complication of diseases. Mr. Sheehan was a brother-in law of J. S. Mc Carthy of this place and resided here about fifteen years ago. He was conductor on the Shawmut railroad for a number of years, and was well known here. He was about 48 years of age.

The funeral was held Wednesday morning in the Catholic church at St. Marys, and the body brought here on a special train, where it was laid to rest in Rose Hill cemetery.

LIGHTNING, RAIN AND HAIL JUST MISSED CITY

A week of terrific heat, a most unheard of circumstance in Kane, was brought to an end temporarily at least, by a terrific electric storm that broke all around but missed this city, except for a small shower, late last night.

At Kanesholm the storm was at its worst and hail fell to a depth of two or more inches. Hailstones were of such size that gathered up they remained nearly three hours without melting. Trees were blown down and struck by lightning, some fruit trees being entirely stripped. Gardens were ruined. Three windows in the Swedish Lutheran church were broken by the hail and a like number in the home of Ira Vantine.

Near Coontown, about one-half mile from Kanesholm an oil, tank belonging to the Holding Oil Corporation, was destroyed and about forty barrels of crude oil went up in smoke. The fire started about 2:30 o'clock in the afternoon during the storm and it is thought that the tank was struck by lightning. Frank Bailey is in charge of the lease.

The storm caused an instant drop in the temperature here. The early hours of Sunday were extremely hot and Saturday night was the most oppressive of the heat wave.

Reports from the Kane Water Works say that rain and hail fell there in profusion yesterday afternoon, while the storm circled the city and it rained hard within a few hundred yards of the head of Biddle street and all along out the state road to Mt. Jewett.—Kane Republican, Monday.

VERA FREEMAN SAILS FOR EUROPE SATURDAY

Miss Vera Freeman sailed Saturday, June 23d on the S. S. Geo. Washington, for England and will land at Southhampton in about eight days. She is with a party of 12 from the Scudder School in New York city, and will visit France, Italy, England and Switzerland, returning to this country in September.

NEW GASOLINE CAR FOR KUSHEQUA RAILROAD BY JULY FIRST.

Mr. Kane expects to have the new gasoline car for the Kushequa railroad by July 1st. The new car will have more power than the one first purchased and a seating capacity of 36 persons.

NEIGHBORHOOD NEWS

FIRE MARSHAL GIBBONS PROBES INCENDIARY FIRE

State Fire Marshal Gibbons of Harrisburg has been in Bradford for several days, quietly conducting an investigation into the incendiary fire of last Sunday morning at the home of Frank Rounds, 99 Hilton street. The Rounds family was all out of the city at the time and some other person or persons laid a carefully planned "plant" to burn down the house. Fortunately the fire was discovered and an alarm sent in from box 46. The Emory whistle blew shrilly for some time, also the whistles on locomotives standing not far off, and residents for some distance around were awakened by the shril blasts.

When the fire department arrived at the house they found a dish pan and fruit jars filled with oil and the excelsior was about six inches deep on two of the bedroom floors. The fire was extinguished so that the plans of the firebug was foiled.

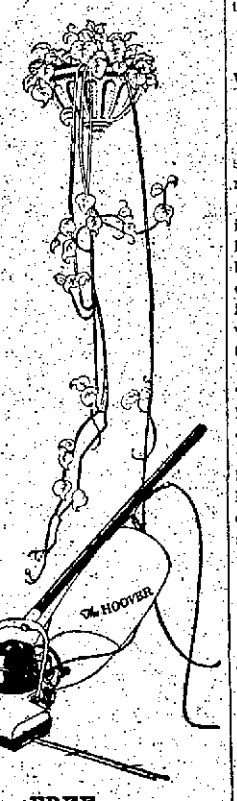
The state fire marshal told Chief Henderson that it was one of the worst case of incendiarism he has encountered and he is all fired up to find the culprit. Mr. Giggons has secured some valuable information since his arrival here and today he conferred with District Attorney Potter in regard to the clues and evidence which he has and an arrest may follow.

The house is occupied by the Rounds family but is owned by Harry Goodman of Bradford.—Bradford Star, Saturday.

The HOOVER

It BEATS... as it Sweeps as it Cleans

Talk to Hoover Users Before You Buy.



Although there is an electric cleaner in only one out of every three wired homes—and despite the fact that a majority of these cleaners are comparatively new—already from 30 per cent of our sales are being made to owners of other machines! The conclusion is obvious. And, from what we hear from Hoover users, the percentage will grow. As one woman aptly puts it, "some of my friends liked my Hoover so well that they sold their other cleaner and bought Hoovers. Others are sorry they didn't know about The Hoover before buying. Many people are satisfied with their cleaners until they see The Hoover work."

Satisfied users of The Hoover, more than any other factor, have made it the largest selling electric cleaner; be guided by this in your choice.

OLD TIME LUMBER JACK FOUND DEAD

John Dowling, aged 67 years, was found dead early yesterday morning in a room which he had occupied during the night in Klink's restaurant at Mt. Jewett. A physician was summoned who upon examination found that the man had evidently expired from heart trouble.

He was familiarly known as "Corduroy Jack" and was an odd character.

"Corduroy Jack" was known to every man in the country in any connected with work in the woods He was a lumberjack all his life and was a whimical character about whom many amusing stories are told. He was a woodsman of the old type who worked until he had a "stake" and then amused himself in some town in the county until his money was gone. The flowing bowl played no small part in these amusements. However, 'Corduroy' is said to have hit the path of sobriety in his declining years and to have labored steadily and faithfully. With his passing one of the best known characters of the old and glorious lumbering days in McKean county has stepped "out of the picture."—Era June 25.

WEDDING CALLED OFF; NO BRIDE ON HAND

Ridgway, une 22.— A wedding scheduled for yesterday morning did not occur.

William DePanfilis has no blushing bride to take her place in the home which he recently purcased here. All the nice things for her comfort, the pretty furniture, cooking utensils and stock of provisions were wasted on Miss Gladys Quattrochie of St. Marys.

While Mr. DePanfilis was not left "waiting at the church," a popular habit with which the fickle damsels of this generation, it amounted to the same thing. All preparations had been made—the girls parents, Mr and Mrs. Angelo Quattrochie, of Chestnut stree, St. Marys had sanctioned the union and arranged for the dowery and the young lady herself, wore a ring presented by Mr DePanfilis.

Miss Quattrochie disappeared Friday night. She left her home about seven o'clock, ostensibly to attend the movies Neither her parents nor anyone else in St. Marys has seen her since The wedding finery is in her room, spread out on the bed, where it was last tried on by the prospective bride.

Mr. and Mrs. Quattrochie gave no particular heed to their daughter's disappearance according to St. Marys Newspaper men because they thought she had married Mr. DePanfilis quietly in order to escape the usual celebration of her countryfolk. But yesterday it was learned in Ridgway that they knew she did not marry Mr. DePanfilis for they notified him of the disappearance of the daughter on Saturday.

Investigations by the record revealed that Joe Yolfore, an employe of the Fireproof plant at St. Marys, and a former lover of Miss Quattrochie, has not been at work since Friday, nor can he be located in St. Marys.

Relatives of Mr DePanfilis stated that all parties concerned seemed to be satisfied with the wedding arrangements. They also said they were very well satisfied the way things turned out.

What a relief it is to find a man who, when you tell him what you want done, goes ahead and does it.

VAIN AND FOOLISH NOTIONS ENTERTAINED IN AMERICA

Many Americans seem to think that all we have to do to bring about order in Europe is to go over there and pat Germans and Frenchmen on the back and say, "Now, boys, let's get together and see if we can't clean this mess away."

The idea is that Europe yearns for our advice as a hospital patient prays for some soothing drug. It is a foolish mistake. Europe is in what some people term a "state of mind," meaning that it is obstinate, cantankerous, ill-tempered, caring more about getting its way by bulling or trickery or bull-headedness than by an "open covenants openly arrived at."

As well for us to try to calm a thunderstorm by reading it a bedtie story.—New (N. J.) Star-Eagle.

IF WAR COMES AGAIN

President Harding on Memorial Day, in an address in Arlington amphitheatre, reiterated his statement of a couple of years ago that in the event of another war all interests and all resources and all men should be conscripted and should serve the nation on epual basis.

"We have already proven that we can have less of armament," the President declared. "Let us strive for the assurance that we shall have none of war."

"We will not alone call to service the youth of the land, but we will draft every resource, every activity, all of wealth, and make common cause of the nation's preservation."

Several minutes passed before the applause which greeted this pronoucement allowed Mr. Harding to continue and then he asserted:

"It will be a more grateful nation which consecrates all to a common cause, and there will be more to share the gratitude bestowed. More, there will be a finer conscience in our war commitments and that sublimity of spirit which makes a people invincible".

The country is overwhelmingly with the President on this proposition and the people would like to see him lead a movement to induce Congress to incorporate the principles enunciated into law. There is no justice or reason in requiring young men of military age and qualifications to serve for a dollar a day more or less, while other men employed by the government receive wages of $10 to $15 per day, and professional men, business men, experts, etc., get much more. All should serve to full capacity at the same pay. Wealth, too, should be conscripted and required to serve without pprofit. In fact every interest must do its full share to preserve the nation, at nominal pay, in proportion to the pay the men who do the fighting receive. Such a policy would be a square deal all around and it should be established.—Webster City, Ia. Freeman Journal.

THIRD MEMBER OF HARDING'S PARTY IS DEAD.

Broken Steering Knuckle Causes Car to Plunge Over Bank Killing Three and Injuring One.

Denver, Col., une 25.—The enthusiastic reception which Denver accorded President Harding was saddened today by an automobile accident in which members of his party figured at Bear Creek canyon.

The death toll of the accident was increased to three this morning when Thomas Dawson former secretary of the United States, died from his injuries in Denver County hospital. Sumner Curtis, representative of the Republican National Committee on the trip, and Thomas A. French, of Denver, were killed outright. Donald Craig, Washington correspondent of the New York Herald, was severely injured, but will recover it was said at the hospital this morning.

Both the president and Mrs. Harding were shocked at the tragedy and there was an air of sadness over the entire Alaskan party today.

The president had been invited to go on the same automobile trip which ended so tragically, but had declined.

Examination of the wrecked machine led to belief that a broken steering knuckle was responsible for the machine's sudden veering off the road and crashing 75 feet into a rock strewn canyon.

President Harding had one of the busiest days today he has experienced since hleaving the capital. Speeches here at noon and in Cheyenne early this evening were scheduled. The president will leave denver at 1.30 o'clock, immediately after his speech at the auditorium.

Refreshed by a night's sleep in a hotel, one of the few he will strike on his long westward journey, the president motored to the home of Senator Phipps this morning for breakfas. After he received members of the Ohio Society of Colorado, and later participated in a long automobile parade hrough the city, which wound up a the state capitol where he greeted thousands of school children.

"What's in a Name?"
By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel.

CLAIRE

CLAIRE was originally a masculine name. Generally spelled Clare, it was first used in England to name a Norman family who came from one of the villages of St. Clair. "Red De Clare," stout Gloucester's earl, the foe of Henry III, was one of them.

The son of Red De Clare married into the House of Geraldin in Ireland and received from Edward I, a grant of lands, now known as County Clare. His heiress carried the county to the De Burghs and their heiress married Lionel, son of Edward III, thus making the county a dukedom and creating the title, the duke of Clarence.

The feminine form is said to have arisen in Italy as Chiara and spread into France where it was immediately changed into Claire. Though preferring the original Clare, the English accepted Claire and it gained some vogue there, but in this country it was adopted with enthusiasm and has undergone widespread usage.

The diamond is Claire's talismanic jewel. It promises her brilliant attainments, magnetism, and courage. Saturday is her lucky day and 6 her lucky number.

ARITHMETIC WAS KNOWN TO THE ANCIENT INCAS

Existence of Well-Developed System of Figuring Proven.

Lima, Peru.—The fact that ancient Inca civilization in Peru possessed an efficient calculating machine has been established by a recent discovery of Francisco Loayza, of Lima. The instrument consists of a knotted cord or "quipu," unearthed in a prehistoric tomb near Cajamarca.

While it has been well known that the Incas made use of "quipus" in common with many other aboriginal peoples in the new world, Loayza is the first historian who has been able to interpret and describe fully the use to which this device was put. His studies show that the Incas had a well-developed system of arithmetic, based on the decimal system, and that they employed the "quipu" for purposes of rapid calculation in subtraction, multiplication and division.

The "master quipu" discovered by Loayza consists of a cord about 16 yards long, containing 100 knots. These knots are divided into 10 unequal sections by as many silver beads, representing the odd numbers from 1 to 19. The sections are of different colors, including brown, yellow, blue and green.

The colors are important factors in the calculating process. The silver beads placed between the groups represent the even numbers from 2 to 20. By counting according to the rules discovered by Loayza, all arithmetical operations can be carried out in a rapid and mechanical manner. Calculations involving tens, hundreds and thousands are possible by this device.

Many simple forms of "quipus" have been found in Peru, but this is the only highly developed one yet discovered. These master cords were not in ordinary use, but were probably reserved for the royal statisticians.

TESTIMONIALS.

GOITRE.

I thought there was no cure for a Goitre, so I let mine go until I saw something had to be done, I read Dr. Brown's advertisement and decided to take up his treatment. My Goitre was very large and a stubborn one to cure, but to say as little as possible of Dr. Brown he has cured me. I found his treatment pleasant, agreeable and thorough. Glenn Culbertson,
Lakewood, N. Y.

Jamestown, N. Y., Oct. 25, 1915

Dear Dr. Brown:—

I have been bothered with a Goiter for many years, and I thought there was no cure, until I read about Dr. Brown's treatment. My Goitre was as big as a large goose egg, and now I am thankful to say that it is all gone, and I find the medicine pleasant to take in every way. Anyone having a goitre I would advice Dr. Brown's treatment. Respectfully yours,
MRS. JOHN HULT,
170 Baker St.

Niagara Co., N. Y., Johnson Creek. Sept. 19, 1913.

Dr. Brown:—

My Goitre is all gone and I feel thankful for it. I went to doctors in Buffalo and Lockport and Gasport and Middleport and Johnson's Creek before I saw you and I did not get any help. Any one with a Goitre I would advise Dr. Brown's treatment as it was that that cured me. It was an old one and very large. I had quit work. Yours,
William Hartley,
38 Middleport, N. Y.

FEMALE COMPLAINT.

Dr. Brown, Jamestown, N. Y.

Dear Sir:—

I feel it my duty to express my gratitude for the good which your medicines has done me. For the past ten years I have suffered from female weakness, I went to many doctors, but none ould do me any good. I commenced taking your medicine and with the first doses I realized I was getting better, and now after continuing your medicine for three months, am well and strong, and find that it is a wonderful medicine for female weakness. After my experience I will recommend it to anyone.
Mrs. Minnie Windell,
East Oak Hill, N. Y.

DEAFNESS CURED.

I take pleasure in recommending Dr. Brown to persons who are deaf I was completely discouraged, as I have been very deaf for ten years, gradually getting worse. All kinds of noises in my ears which kept me awake all night, and could not hear well, and feel that the results of the treatment are wonderful. I am 75 years old. Emery Woodard,
Jamestown, R. F. D. 82.

HEART DISEASE.

I have been afflicted with valvular disease of the heart for 5 years caused by Rheumatism, and I doctored and got no relief until I treated with Dr. Brown. I have taken his treatment. I am now well and strong, and feel like a new man. I now sleep well, and my catarrah of the stomach is also cured.
Gust A. Anderson
16 Maple St., City.

CATARRH.

I had catarrh all through my system; in my stomach, head, nose, and throat. Even my liver and kidneys were afflicted, and my bowels as well. Iwas nervous, tired easily, slept poorly and suffered from headaches, dizziness and constipation. I had irregular appetite, poor digestion and as troubled with pains in my stomah and back.

It was easy for me to take a bad cold and I was continually bothered with dryness in my throat and the hawking and spitting of mucus. Every morning I got up with a coated tongue, had taste in my month and feeling anything but fit to do a good day's work.

All of my old troubles have disappeared. The Medicine helped me wonderfully and I cannot begin to say enough in its favor.
N. Brownell Allen St. City.

STEADY INCOME FROM DAIRY

Distributes Marketing Throughout Year and Gives Employment in the Dull Months.

The dairy herd returns a constant income to the owner, distributes the marketing period throughout the year, gives employment for the winter months which would otherwise be largely wasted from a productive standpoint, and reduces the crops to their most compact form. If dairying continues to be managed by men of industry and foresight it cannot fail.

ADVANTAGE IN KNOWING COW

Small Breeder Is in Better Position to Increase Milk Yield Than Large Owner.

In the matter of knowing the individuality of the cows the small breeder has an advantage over the man with a large herd. The man with 100 or more cannot know his animals so well nor hope to get so much out of them. The old saying, "Know thyself," is no more excellent than is the one, "Know thy cows."

PLAN TO AVOID DIRTY MILK

Where Cows Are Kept Indoors for Greater Part of Day Pay Attention to Bedding.

Dirty milk is most often caused by the accumulation of dirt on the cow when confined to the stable for the greater part of the day. While the cows are kept indoors most of the time, more attention should be given to the bedding, and the manure should be removed frequently.

GENTRY BROS. CIRCUS
HERE JULY 3rd.

Will exhibit in Smethport, on Tuesday July 3. This will be the 31st annual tour of this popular firm and many improvements have been made in their already excellent show. An entire wild animal arena has been added since its last appearance in this city and a stirring new patriotic spectacle will also be seen here for the first time. The Gentry Bros program has already been given best of satisfaction in this city. In fact, it would be almost imposible to devise a cleaner, more pleasing and interesting exhibition than the one Trade Mark.

SHERIFF'S SALE.

By VIRTUE of a writ of Fieri Facias, issued out of the Court of Common Pleas of McKean County, Penna., and to me directed, I will expose at public sale on the premises in Eldred Township, McKean County, Pennsylvania, on

TUESDAY, JULY 17th, 1923.

at 2 o'clock p. m.

The defendant's interest in all that certain piece parcel or tracts of land situate in the Township of Eldred, County of McKean and State of Pennsylvania bounded and described as follows:—BEGINNING at a post in the middle of the public road, being the southeast corner of lot number thirteen (13) of the allotment of Keating lands in said Township; Thence by the middle of said road north 72° east, fourteen (14) rods to a post; Thence north thirty eight and one tenth (38.1) rods to a post in the north line of the Bradford, Eldred and Cuba Rail Road lands; Thence by said lands north 78° west, eight (8) rods; Thence north 66° west, six (6) rods to a post in the west line of the first mentioned lot; Thence south forty six and five tenths (46.5) rods to the place of beginning. Containing three acres and seventy-eight (78) rods, more or less.

ALSO BEGINNING AT A POST in the north line of the lands of the hereinbefore mentioned Rail Road and standing directly north of the northeast corner of the above described lot; Thence north 86° east, nine and three tenths (9.3) rods to a post; Thence north sixty-seven and five tenths (67.5) rods to a post; Thence west twenty two and fifty four hundreds (22.54) rods to a Birch Tree in the west line of said lot No. 13; Thence by said line south sixty three and six tenths (63.6) rods to a post in the north line of said Rail Road lands; Thence by said lands to the place of beginning; Containing nine (9) acres and eighty two (82) rods more or less, and being the same premises as conveyed to mortgagor by mortgagee and wife by deed of even date and to be recorded forthwith.

Improved and having thereon a frame dwelling house, barn and usual outbuildings.

Seized, taken in execution and will be sold as the property of Reuben Latshaw, administrator of the estate of Thersa Latshaw, at the suit of Frank E. Eaton now for use of Walter D. Geuder.

T. F. Mullin,
Atty for Plaintiff.

Stone Lions Placed by Aid of Ice Cakes

Akron, O.—Cakes of ice were used in the placing of two heavy sculptured stone lions at the entrance of the Summit county court house here. After the statues had been hauled to the scene it was found that there was no available derrick to lift them from the wagons into position. However, an ingenious mind suggested filling the excavations in which the stone lions were to rest with ordinary cakes of ice to a level with the wagons. Sliding the figures from the wagons onto the ice was an easy matter. By melting the ice with hot water they were soon lowered to their foundations.

THE SPIRIT OF ATLANTIC CITY

Among the great resorts of the world Atlantic City stands notable and preeminent.

Its far-famed Boardwalk—skirting the ocean shore for more than seven miles—is a marvelous esplanade on which are to be found thousands of pleasure seekers at all seasons of the year. Wealth and beauty—the pomp and circumstance of life—ebb and flow on its broad expanse in an unending procession.

In The Boardwalk—vibrant with life, with its magnificent hotels, its glittering and gorgeous shops, its amusement places endless in variety and charm—is to be found the spirit of Atlantic City—the essence of the thing that sets it apart and distinguishes it from all other resorts.

A beautifully illustrated booklet descriptive of Atlantic City—and of many other delightful resorts along the New Jersey shore—may be obtained upon application to any ticket agent of the Pennsylvania Railroad. Summer tourist fares via Delaware River Bridge—the only all-rail route—are now effective.

MODERN PIED PIPERS ARRIVE IN BRADFORD TO WAGE WAR ON RATS.

A modern Pied Piper, different from the famous one of Hamelin in that he worked wih two helpmates and reverts to other means than a flute to rid the city of rats, arrived in Bradford last night and today will begin the extermination of the rodents from places of business and houses infected with pest.

The up-to date piper is J. R. Waterhouse and his helpmates are R. R. Keep and F. P. Beaver. The men will make the health Department office in the city hall their headquarters. The campaign is heartily endorsed by the city council and Health Officer Carl Peterson.

Music, which once held the power to sooth the savage beast and which is credited with ridding Hamelin town of its hordes of rodents, has been succeeded in these more modern days by barium carbonate. A prosaic government has discarded the pipe of the pied piper and substituted the chemical in its place.

Working under the sanction of the Health Department, the men will remain in Bradford until the rodent population has been materially decreased. The war will be conducted along lines sponsored by the government. Barium carbonate will be the main weapon. The nature of the destroying method is such that rats and mice are driven to the open to die, eliminating hazardous frequently encountered in a war on rodents. Anyone in the city, interested in ridding the rodents from his premises may notify Mr. Waterhouse at the health deparment office in the city building.—Era, June 26.

"Zaza and Rupert eye each other coldly as they pass by."

"Why, they were engaged to be married. In fact, I received an invitation to their marriage."

"Yes, and if you notice, it made her the headliner. As a star in his own right he couldn't stand for that."

Feline Amenities.

"How kind of you to call. I'm so sorry to have kept you waiting."

"Oh, don't mention it—I've not been at all bored. I've been trying to imagine what I should do to make this room look tasteful if it were mine."—Boston Evening Transcript.

Betty's Conclusion.

Betty stood gazing at her grandfather.

"Well, dear, what is it?" he finally inquired. "What's in your mind?"

"I was thinking, grandpa," replied Betty, "that if the good die young what an old rascal you must be."

A True Love Test.

Mabel—I understand that Ethel's new beau is an ex-service man. Is he attached to her?

George—Is he? I should say so. She had him to dinner several times and served salmon and he never said a word.

Progress.

"How is Smith coming along with that country place?"

"Well, he has reached the point where he is almost ready to let the architect see the plans he himself has drawn."—Life.

ABSOLUTELY SO

Customer—Are you sure that this milk is pure? I know that these bottles are hard to keep clean.

Milkman—Why, madam, we use nothing but sterilized water.

Might Help Some.

For better times we long,
Of course we do.
But then I think folks should
Get better, too.

In Old Age.

"There's no fool like an old fool."

"I've tried being all the other varieties."

"Well?"

"Glad I have something to look forward to."

Almost Like New.

Caller—Isn't that picture one of the old masters?

Mrs. Newrich—I believe so, but my husband had it varnished and framed in a way that makes it look almost as good as new.

Narrow Escape.

"The biggest fish got away."

"That's what they all say. I bet if I hooked a big fish I would land him."

"So would I. But he didn't even show up where I was fishing."

Cause Instead of Cure.

"I used to go to the theater just as a tired business man would."

"Why did you give it up?"

"I found it was the plays that were making me tired."

A Suggestion.

Wife—We need a new set of dishes, dear. This one is nearly gone.

Hub—Why don't you wait until we get a new cook and start even?

Might as Well.

"Our neighbor has borrowed all our books."

"Send him over the bookcase."—Louisville Courier-Journal.

Economic Exercise.

"Ever do any sprinting, old man?"

"Running into debt."

"Any boxing?"

"Sparring for time".

Discouraging.

"The fools aren't all dead yet."

"No, and the worst of it is most of them aren't even sick."

PLATE GLASS PLENTY SAYS P. A. HUGHES.

New York, June 27.—Plate glass enough to glaze a continuous store front six feet high from New York to an Francisco will be produced this year in the United States.

Figures announced by P. A. Hughes secretary of the Plate Glass Manufacturers of America, place the country's production of plate glass for the first quarter of the year at 19,952,154 square feet. The total for the year will be between 85,000,000 and 90,000,000 square feet. Mr. Hughes pointed to these figures in denying rumors that a plate glass shortage threatens the building trades.

Use of plate glass has increased rapidly in recent years. The estimated high record of 90,000,000 square feet for 1923 follows a production of 76,073,207 square feet in 1922 and an output of 53,578,682 square feet in 1921.

EYE HAZARDS IN FACTORIES

Two Hundred Thousand Accidents to Eyes of Workmen Occur Each Year in Industries.

New York.—Two hundred thousand accidents to the eyes of workmen occur in industry each year, and approximately 10 per cent of the total blind population of the country, or 15,000, represent the industrial blind.

These are two of the facts developed in an investigation of the eye hazards of industrial occupations which was conducted last year by the national committee for the prevention of blindness. The study covered every state in the Union and every industrial occupation in which there is an accident hazard.

The report points out that much already has been accomplished toward alleviation of the eye accident problem in industry, but all this is merely a beginning.

Many Hazards Existing.

"There are still countless plants whose operations present serious eye hazards, in which no goggles or other protective equipment are available. There are many plants where workmen still keep goggles in their pockets except when they are watched. There are still plants in which toothpicks, matches, handkerchiefs, pocket knives, and even the tongues of workmen, are the instruments employed to remove cinders and other particles from the eyes of fellow workers."

Industrial accidents, the report says, are responsible for an injury to a human eye every two and one-half minutes, day and night, 365 days a year.

"The solution of this problem," the report says, "depends upon three forces: Legislation, education and actual accident prevention service to industry.

Suggestions Are Made.

It makes the following general statements:

1. The elimination of eye hazards in industry is not only a moral obligation, but a good business proposition.

2. Goggles at best are a handicap; the first effort, therefore, should be directed toward the elimination of the hazard itself by changing the processes of manufacture, by redesigning machines and tools, or by guarding machines and tools at the source of accidents, usually the point of operation.

3. Few people have perfect vision to start with; greater attention should, therefore, be given to the examination of the eyes of employees, to the correction of defective vision of industrial workers and to a consideration of the condition of the eyes of the individual worker with relation to the visual requirements of the work that he is to do.
